EXPERIENCES

Junior Front End / Digital Marketing Assistant

Stoneshot ltd. | November 2017 - Present

I've been working with finance firms from Europe and Asia in a team of 10 people based in Bank. Duties included setting up campaigns, from design to reporting. As part of Client Services, I was in close contact with Marketing and Content Managers of clients like HSBC (UK and Hong Kong), RBS, AXA, Invesco and more.
We were often required to set up their events, by designing invites and online forms for attendees to register with.
Skills used and matured: HTML, Email building and testing, CSS, ASP, JavaScript and JQuery.

DEVELOPERS PROFESSIONAL PROGRAMME

Bootcamp: JustIT Training Ltd, London | June 2017 - August 2017

The course provided training on the most in-demand skills for developers today, along with career and soft-skills coaching.
The topics include HTML and CSS, Javascript and jQuery, C# and ASP.NET

WORKING-STUDYING PERIOD

London Farringdon | March 2017 - June 2017

I started studying web development while being employed full time in bars. Resources used include Freecodecamp and Codecademy. I started my portfolio, stefanobisio.github.io, and coded a few projects. This is when I decided to fully invest in web development.

STEFANO BISIO

FRONT END WEB DEVELOPER

EDUCATION

ITIS ALBERT EINSTEIN
Milan, Italy | 2004 - 2008
Field of study: Electrical,
Electronic and
Communications Engineering
Technology/Technician

OTHER INFO

I'm looking for a full-time
position in London.
Available immediately.
I can provide references on
request.

HOSPITALITY CAREER

London Farringdon | 2014 - 2017

I worked for Be at One. I learned to work along with small and
big teams, learned the training of new members, and most of all
to deal with unsatisfied customers of every sort.
It changed me and gave me great interpersonal skills.

ORCHID BOX LTD - INTERNSHIP

London Bridge | July 2014 - September 2014

I was part of a small team in a shared open-space office in
London Bridge. It was very vibrant with start-ups and
entrepreneurs. I had my hands on the HTML and CSS, with
some SEO work as well.
I took part in the creation of a real-time bidding advertising
network called Geniad

FREELANCING

Milan, Italy | 2013 - 2014

I took part in many projects for small businesses in Italy.
Friends and family working with Wordpress and Joomla.
It gave me solid basics of HTML and CSS, JavaScript and a
grasp of PHP.
The latest one has been www.SparkSync.co.uk, a Training and
Consulting firm in the UK and Uganda.

Thank you for your time
